

Science Technology Engineering Architecture Math

2023

ABOUT THE SCHOLARSHIP

H2M will be awarding multiple \$1,000 scholarships to students from various school districts in the Tri-State area. We encourage all graduating seniors who are interested in pursuing a STEAM related undergraduate degree and who plan to enter a career in architecture, engineering, planning, land surveying, landscape architect or environmental science to apply.

ELIGIBILITY CRITERIA

- A graduating High School Senior planning on enrolling in a Science, Technology, Engineering, Architecture or Math major
- Must be applying to an accredited College or University
- Cannot be an H2M employee or family member of a current employee

HOW TO APPLY:
